

LEISURE RANGE

Our story

We've got your safety covered.

For absolute protection and performance, you need the very best equipment you can rely on to ensure your safety is taken care of. By combining our innovative ergonomic designs with ground-breaking performance materials, we aim to provide you with the winning formula. Our leisure brochure offers a complete product collection for those essential items of safety equipment allowing you to enjoy the pleasures of being out on the water.

Crewsaver[®]
60TH ANNIVERSARY

60 years of pioneering lifejacket technology

We're celebrating! Having first launched to the market in 1957, we are celebrating more than 60 years of pioneering lifejacket technology!

Based in Gosport, Hampshire, we design and manufacture bespoke safety equipment for several countries' Special Forces, and the aviation and oil industries. We are the only company to hold an exclusive contract to supply lifejackets to the UK government's Environment Agency and the Royal National Lifeboat Institution (RNLI).

Survitec is recognised as the most comprehensive global total solutions provider for mission critical safety and survival equipment. With a history dating back over 160 years, Survitec commands market-leading positions worldwide in marine, offshore, defence & aviation survival technology.

As innovators with a passion for developing new products and services to meet the changing demands of our customers, we pride ourselves on delivering great service. Although our business interests span many countries and markets, our people share a common mission... your survival.

Crewsaver, a part of Survitec are the leading lifejacket manufacture for the marine, offshore and defence commercial markets.

CREWSAVER 1957

The Crewsaver brand is first incorporated under the name 'Crewsaver Marine Equipment Ltd' in Gosport on the South coast of England.

1980: Crewsaver pioneers the design of new gas operated air-only lifejackets, which delivered many more feature-benefits as well as increasing overall safety for the user.

1968: Crewsaver begins to expand quickly and develops a specialist knowledge in safety products, creating unique styles tailored to specific sectors of the sailing community.

Survitec Group launch a brand new range of Crewsaver commercial lifejackets including the brand new modular designed Crewfit XD

CE 1996: CE approval standard is introduced, with new legislation and approvals to adhere to. Changes were made to design and function of lifejackets to ensure all products exceeded new standards.

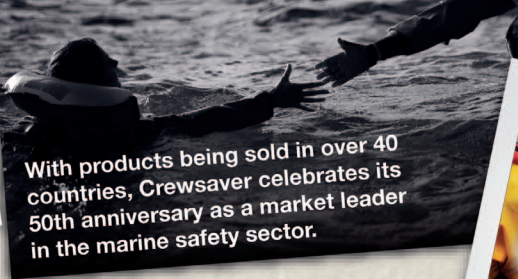

2017

2017: Artemis Racing appoints Crewsaver as safety supplier for 35th America's Cup leading to the design of two revolutionary new high performance buoyancy aids

2007

With products being sold in over 40 countries, Crewsaver celebrates its 50th anniversary as a market leader in the marine safety sector.

Survitecgroup
2011: Survitec Group Limited, one of the global leaders in safety and survival equipment, acquires the Marine Division of Cosalt plc, including the Crewsaver®, Yak® and CSR® brands.

2010
Crewsaver is named as the RNLi Supplier of the year.

2014
Crewsaver signs partnership with Abu Dhabi Ocean Racing.

2018

Crewsaver is committed to continue to develop ground breaking products to help ensure that users remain as safe as possible when on (or in!) the water.

1980's: The Crewfit range effectively established as a worldwide benchmark for the design and function of lifejackets for the leisure user.

WHY CHOOSE CREWSAVER?

Crewsaver is recognised as a world leading designer and manufacturer of lifejackets and sailing equipment.

Expert Design

Crewsaver's expert designers work closely with the most experienced lifeboat crews, as well as elite round-the-world racers used to pushing their limits within the extreme wind and wave conditions of the Southern Ocean.

With their unique insight we are able, step by step, to refine every aspect of our lifejackets' design and construction.

We feed these innovations directly into each of our lifejacket ranges, whether for commercial or leisure use, ensuring that whatever your reason for being afloat, your safety is never compromised.

Materials and Fabrics

Whether you seek comfort, functionality, approval, reliability, longevity or strength, we have a Crewsaver lifejacket to suit you.

Our design team carefully chooses the best and most appropriate materials for each product, ensuring the ultimate in comfort and longevity for the individual environment. We then combine our in depth know-how with the latest technology to construct quality products which offer you the best possible performance.

Inflation Mechanisms

Crewsaver works tirelessly with the world's leading inflation mechanism manufacturers to ensure that all the units we use offer the best possible performance within each individual lifejacket design.

In addition, we are proud to have introduced the Pro-Sensor Mk3 operating head into our lifejackets as the culmination of a project with one of our valued suppliers.

With an improved mechanism, the head operates in less than a second of coming into contact with water. Just as importantly, it also includes a new anti-tamper locking system. We have combined the Pro-Sensor Mk3 with the MK5i capsule, which incorporates a new sealing method to help prevent inadvertent inflations.

Bladder Technology

Our design philosophy begins with approval standards. To this we add the Crewsaver difference brought about by our complete understanding of both daily life and emergency survival in extreme marine environments.

All of our products are designed, tried and tested with real life situations in mind, allowing you to rely on them completely.

For example, all of our lifejacket bladders are designed ergonomically for every day use but without compromise for your survival in the very worst scenarios. In normal conditions, the 3D sculptured shaping gives you maximum comfort and our sculpted sides allow you to move freely and without hindrance. However should an emergency arise and you find yourself in the water, you'll find our unique designs inflate quickly and reliably. They have buoyancy distribution to keep your mouth well above the water, known as mouth freeboard, and top-of-the-range turning properties to safely float you on your back. Our inflatable chin support will also help to keep your airways clear.

Are you **#LifejacketSafe**

“ I’m not planning on falling in... ”

It’s something that we have all heard before and we may even be guilty of thinking it ourselves. However...

“Accidents can happen at any time in any weather. Good training and common-sense help, but lives could be saved every year if people wore correctly-fitted, well maintained lifejackets or buoyancy aids.”

- Maritime and Coastguard Agency

The **#LifejacketSafe** campaign aims to increase safety awareness by highlighting the importance of not only wearing a personal flotation device, but also making sure it is worn correctly and is well maintained.

So, if the worst should happen, you are well equipped and can rest assured that your safety equipment is not going to let you down.

Do you...

- ✓ Wear a lifejacket and wear it correctly?
- ✓ Get your lifejacket serviced annually?
- ✓ Wear the right lifejacket for your activity?
- ✓ Follow care and maintenance guidelines?

For more information about how you can stay **#LifejacketSafe**, visit the **#LifejacketSafe** section on the Crewsaver website.

Lifejacket Servicing

For those who have bought a lifejacket and wear it, we say 'congratulations'! You have taken the first step in increasing your chances of survival in an in-water emergency. But did you know... your lifejacket, just like your car, needs to be regularly maintained and serviced?

What happens during a lifejacket service at an approved service station?

- ✓ All lifejackets serviced at an approved Crewsaver service station will be subjected to rigorous inspection by a fully qualified technician to maximise its performance if needed in an emergency
- ✓ Perform a lifejacket inspection and advise if the lifejacket can be serviced or needs to be replaced
- ✓ A service is also an opportunity for components to be stripped down, so that all the valves and seals, normally hidden behind various components, are also tested. Any expired, worn or perished parts will be replaced (additional costs may be incurred for the parts, just like an MOT)
- ✓ An inflation to test pressure & mechanism test will be performed to ensure the bladder is in working order
- ✓ Any general observations that you should be made aware of will be highlighted including any service bulletins or advisories that may have occurred on this product
- ✓ On repacking the lifejacket, the service station will ensure it is repacked correctly and will therefore work in an emergency
- ✓ The accredited service station will keep a test report recording how the lifejacket performed. Then in the event of an issue, this test report can be consulted

To find your nearest Crewsaver service station head to 'Find a Stockist' on www.crewsaver.com

Put the **life** back in your **jacket**.

Register your Crewsaver lifejacket or liferaft to receive your free servicing reminder.

Why Register?

- ✓ We will send you email reminders to get your lifejacket or liferaft serviced
- ✓ Your product details will be held on our system. This will be very useful if you ever need to contact us with an enquiry or if your lifejacket or liferaft is found
- ✓ Receive **#LifejacketSafe** safety tips

Registering your lifejacket or liferaft is easy!

Simply register at: www.crewsaver.com/uk/product-registration

Would you trust your life in the hands of this lifejacket?

Don't take the risk.

Look after your safety equipment so it can look after you.

Crewsaver

Are you #LifejacketSafe

WHICH LIFEJACKET WHEN?

Whatever your circumstances, be sure to choose your lifejacket carefully. Whether you are selecting for yourself, your crew or your family, you should consider worst-case scenarios and the type of lifejacket everyone should be wearing for their ultimate safety overboard in that environment.

Buoyancy Rating: 50N

- Swimmers only
- Sheltered waters
- Help at hand
- This is a buoyancy aid and should not be mistaken for a lifejacket

Intended for use by those who have help or a means of rescue close at hand, and who are able to swim. A device with 50N of buoyancy often has minimal bulk, but requires active participation by the user and cannot be expected to keep the user safe for a long period of time overboard.

ASK YOURSELF...

What type of boating activities am I involved in?

What type of conditions will I face?

What type of clothing will I be wearing?

Buoyancy Rating: 275N-290N

- Sheltered > Extreme conditions
- Light > Special protective clothing
- Heavy equipment

These are the highest performance lifejackets available from Crewsaver approved to 275N and are designed for offshore and ocean use.

Their high buoyancy offers maximum protection when in severe weather conditions and are also the lifejacket of choice when wearing heavy waterproof or foul weather clothing.

Buoyancy Rating: 100N Foam

- Sheltered waters
- Light clothing

These products are great for sheltered and coastal waters and can be seen on the river bank, canal side, beach or marina. The 100N foam device has inherent buoyancy provided by integral foam, giving instant reassurance and security.

Buoyancy Rating: 150N Air Foam

- Sheltered > Offshore waters
- Light > Foul weather clothing

These jackets come in either a foam only option offering 150N of inherent permanent buoyancy or 150N air foam option offering 100N inherent permanent buoyancy with the option to inflate to 150N if required.

Buoyancy Rating: 150N-165N

- Sheltered > Offshore waters
- Light > Foul weather clothing

These lifejackets are ideal for everyday use including cruising in coastal and offshore waters in clear weather conditions. Approved to 150N standards, this category includes the range of Crewfit 150N - 165N inflatable lifejackets.

Buoyancy Rating: 180N-190N

- Sheltered > Offshore waters
- Light > Foul weather clothing

Approved to 150N standards, these Crewsaver lifejackets provide more support than the standard 150N models, whilst maintaining minimal bulk. Suitable for: inshore, coastal and offshore use.

Important: Wet weather clothing can trap air between the layers which can adversely affect the self-righting capacity of the lifejacket. Consider the type of clothing that you will be wearing in worst-case scenarios when choosing a lifejacket.

Inflation Options

Pro-Sensor

The Pro-Sensor inflation system provides the user one point of status indication, to confirm that the unit has been automatically or manually activated. The unit also provides the added benefit of detecting if the CO2 cylinder has been pierced, eradicating the possibility of accidentally fitting an empty gas cylinder.

- Can also be inflated manually

Hammar Automatic

The Hammar Inflator gives excellent protection from random activation caused by moisture, rain or wave splash. This is achieved by protecting the water sensitive element with a hydrostatic valve, which operates when submerged in over 20 cm of water and, depending upon the lifejacket style, held there for between 2 to 3 seconds.

- Hammar works on water pressure, only operating when submerged in 20 cm of salt or fresh water
- Limits the possibility of an accidental inflation, even in extreme conditions
- Cylinder is mounted on the inside of the lifejacket inflation chamber
- Can also be inflated manually

Standard Automatic

Inflation occurs automatically when the capsule is immersed.

- Capsule fires within 5 seconds of entry into water
- Mechanism pierces cylinder, inflating the lifejacket
- Can also be inflated manually

Manual

Our manual lifejackets will only inflate when you pull the manual pull cord, this option allows the wearer to swim without the lifejacket being activated automatically. This can be useful if you expect to launch or tend a craft in calm waters.

- Pull lanyard
- CO₂ cylinder is fired
- Lifejacket inflates
- Delivers full buoyancy in approximately 5 seconds

All gas lifejackets can also be inflated by blowing into the oral tube.

Harness Options

Harness

In addition to best practice of wearing a lifejacket at all times, the wearing of a deck safety harness while on a sailing yacht is mandatory at night under RORC (Royal Ocean Racing Club) regulations and highly recommended by all safety at sea organisations whenever there is rough weather.

Non-Harness

The non-harness version is recommended for situations where being attached to the boat is more dangerous than floating free in the water. Powerboats, speed boats and RIBS (Rigid Inflatable Boats) are all examples where being towed alongside at high speed would be dangerous. The fitting of a safety light on non-harness lifejackets is highly recommended. Non-harness lifejackets are lighter in weight and do not have metal fittings or a safety line attachment point.

Crewsaver

Which Lifejacket When?

THE NEXT LEVEL IN LIFEJACKET DESIGN

The Crewsaver lifejacket range encompasses the most innovative fusion 3D technology, providing users at every price point with the most advanced comfort solutions available to date. The range moulds to the shape of your body and sits off your neck giving the user total freedom of movement – so comfortable you will forget you are wearing it.

FUSION 3D

A large percentage of the boating world still do not wear lifejackets. As a manufacturer of integral safety equipment the challenge for Crewsaver has been to reduce this number through the design of comfortable, stylish lifejackets for the everyday boater, whilst increasing the key safety features for vital in water performance.

The introduction of the new Crewfit lifejacket range means that whatever level you are operating at there is a Crewsaver to suit. Following the success of the ErgoFit lifejacket range, chosen for both its increased comfort and safety factors, Crewsaver proudly announce the launch of the complete lifejacket range. Using the same advanced technology encompassed within the ErgoFit range, Crewsaver now offer comfortable, safe and stylish solutions at every level.

**COMFORT.
STYLE.
PERFORMANCE.**

THE ONLY COMPLETE 3D LIFEJACKET RANGE

Whether you seek comfort, performance, functionality, approval, reliability, longevity or strength, we have a Crewsaver lifejacket to suit. Our design team carefully chooses the best and most appropriate materials for each product, ensuring the ultimate in comfort and longevity for the individual environment.

THE **ERGOFIT** REDEFINING SAFETY, COMFORT & STYLE

From the professional ocean racer to the recreational boater, the high performance ErgoFit lifejacket is a 'must-have' for anyone who takes safety on the water seriously.

- Rigorous testing and retesting to exceed all safety standards
- Ergonomic 3D design for freedom of movement
- Super fast turn speed
- Twin lifting points to aid recovery
- Market leading inflation chamber keeps airway clear of the water
- Range of inflation options
- ISO 12402-2 approved (290N)
- ISO 12402-3 approved (190N)

FUSION 3D

Redefining safety, comfort & style

Example shown: ErgoFit 290N OCEAN

Survive, be found & get recovered.

It's what's inside the ErgoFit that will save your life.

SURVIVE

Turn speed is less than 3 seconds, the ErgoFit will double your survival chances even when wearing multiple layers of ocean clothing.

BE FOUND

Integrated with a PLB or AIS system. Coupled with a SOLAS approved light whistle and reflective tape increases the chance of being located quickly.

GET RECOVERED

It is critical to get you out of the water as soon as possible, accessible twin lifting points are incorporated on the front of the ErgoFit for ease of recovery.

ERGOFIT It's what's inside that counts

Inflated ErgoFit 290N OCEAN lifejacket

ErgoFit

ErgoFit 290N EXTREME

Designed exclusively with Abu Dhabi Ocean Racing, based on the highly successful ErgoFit lifejacket collection, the ErgoFit EX maintains all of the high specification safety features of the ErgoFit 290N while providing essential performance attributes for the serious ocean racer.

- Fusion 3D design provides the ultimate in comfort
- A transparent indicator 'window' showing the status of the inflation mechanism
- Dual buckle system and side waist adjusters, uniquely designed to ensure swift donning
- Robust 500D nylon heavy duty cover
- Custom crew numbering system
- Unique bladder distribution, providing turning solutions in less than three seconds and allows you to move your arms freely
- A built in inflatable chin support to support head and help keep airway clear
- AIS compatible, allows for automatic activation on inflation
- Light, hood, crotch straps and safety line attachment point included as standard

Code	Description	Size	Rearm kit
9145-BKAP	Automatic	Adult	11037
9145-BKHP	Hammar	Adult	11307

*Ocean rowing modifications available

ErgoFit 290N OCEAN

The ErgoFit 290N OC is a 3D-moulded lifejacket designed for those working in extreme marine environments or for serious ocean sailors facing the full fury of the elements.

- Fusion 3D design provides the ultimate in comfort
- A transparent indicator 'window' showing the status of the inflation mechanism
- Easy to adjust side waist adjusters
- Unique bladder distribution, providing turning solutions in less than three seconds and allows you to move your arms freely
- A built in inflatable chin support to support head and help keep airway clear
- AIS compatible, allows for automatic activation on inflation
- Light, hood, crotch straps and safety line attachment point included as standard

Code	Description	Size	Rearm kit
9135BKAP	Automatic	Adult	11037
9135BKHP	Hammar	Adult	11307

ErgoFit 190N OFFSHORE

The ErgoFit 190N OS is a 3D-moulded lifejacket designed to provide those braving the elements offshore with the extra security needed in all conditions away from sight of land.

- Fusion 3D design provides the ultimate in comfort
- A transparent indicator 'window' showing the status of the inflation mechanism
- Easy to adjust side waist adjusters
- Unique bladder distribution, providing turning solutions in less than three seconds and allows you to move your arms freely
- A built in inflatable chin support to support head and help keep airway clear
- AIS compatible, allows for automatic activation on inflation
- Light, hood, crotch straps and safety line attachment point included as standard

Code	Description	Size	Rearm kit
9125BKAP	Automatic	Adult	10007
9125BKHP	Hammar	Adult	11306

ErgoFit 190N PRO

The ErgoFit 190N Pro maintains all of the high specification safety features on the inside as the 190N OS, whilst minimising features on the outside. A 3D-moulded lifejacket with the advanced specification on the inside to excel for all coastal and offshore water users.

- Fusion 3D design provides the ultimate in comfort
- A transparent indicator 'window' showing the status of the inflation mechanism
- Dual buckle system and side waist adjusters, uniquely designed to ensure swift donning
- Unique bladder distribution, providing turning solutions in less than three seconds and allows you to move your arms freely
- A built in inflatable chin support to support head and help keep airway clear
- AIS compatible, allows for automatic activation on inflation
- Light, hood, crotch straps and safety line attachment point included as standard

Code	Description	Size	Rearm kit
9115BKAP	Automatic	Adult	10007
9115BKHP	Hammar	Adult	11306

ErgoFit fitted with Smartfind S20 AIS

The addition of the Smartfind S20 AIS turns your ErgoFit lifejacket into your personal AIS search and rescue locating device.

- Automatic activation on inflation of the lifejacket*
- Flashing LED indicator light to make you easier to spot at night
- 24 hours continuous transmission
- 7 year battery storage life

*Only guaranteed if factory fitted

For more information on the Smartfind S20 AIS head to page 47

Crewsaver

ErgoFit

THE CREWFIT. QUALITY, PERFORMANCE & VALUE

The Crewfit range are the first lifejackets of their kind in the world to offer; safe, stylish, comfortable and affordable solutions to the everyday recreational boater.

Using the knowledge and experienced we have gained during the development of the ErgoFit lifejacket range, alongside 30 years of experience we have in the design and manufacture of inflatable lifejackets we are able to ensure that every Crewsaver lifejacket encompasses the most advanced and essential safety features at every price point.

30 YEARS OF
CREWFIT

Crewfit 180N PRO

The first of its kind, an everyday boating lifejacket designed using 3D technology to radically increase comfort levels. Successful integration of a high volume shaped bladder design, a peninsula chin support and increased buoyancy to 180N provides you with maximum in water performance. The Crewfit 180N Pro wraps all of these safety features into a fun, stylish, 3D shaped and super comfy cover.

- A transparent indicator 'window' showing the status of the inflation mechanism
- Robust outer cover
- Twin, forward pull side waist adjusters
- Crotch strap
- Soft loop D-ring for attaching harness (Harness version)
- AIS compatible, allows for automatic activation on inflation
- Peninsular chin support, to keep your airway clear of the water

*Optional extra spray hood, surface light & Smartfind S20 AIS

Spray hood attachment point

Unique buoyancy distribution allowing you to move your arms more freely

Peninsular chin support

180N inflation chamber providing exceptional turning solutions even when wearing heavy clothing

UML Pro-Sensor operating head

Manual oral tube for additional air top up

Reflective tape to aid visibility

Attachment point for Crewsaver Surface Light

Whistle

Attachment point for Smartfind S20 AIS unit

Lifting becket, allowing your crew to get you out of the water as easily as possible

Code	Description	Colour	Rearm kit

9020BKA	Automatic	Black	10007
9025BKM	Manual Harness	Black	10034
9025BKA	Automatic Harness	Black	10007

Crewfit 165N SPORT

The Crewfit 165N Sport uses the latest Fusion 3D technology, ensuring maximum comfort levels. Entry level to the Fusion 3D range the Crewfit 165N Sport has the essential features to ensure the recreational user remains safe when out on the water.

- Robust outer cover
- Centre buckle adjuster
- Crotch strap
- Soft loop D-ring for attaching harness (harness version)

*Optional extra spray hood and surface light

Spray hood attachment point

New, improved bladder design that reduces wave impact on the face, greatly improves the mouth free board (distance from your mouth to the water) and provides a unique chin support helping to keep your airways clear

Unique buoyancy distribution allowing you to move your arms more freely

UML MK5 Automatic or Halkey Roberts 840 Manual operating heads

Reflective tape to aid visibility

Attachment point for Crewsaver Surface Light

Manual oral tube for additional air top up

Crewfit 150N JUNIOR

The first 3D designed lifejacket for juniors, helping to ensure your little ones remain as comfortable as possible when out on the water. Safety is paramount on the Crewfit 150N Junior, a unique bladder design with a peninsular chin support offers the most advanced performance solutions available today.

- A transparent indicator 'window' showing the status of the inflation mechanism
- Robust outer cover
- Side waist adjuster
- Crotch strap
- Soft loop D-ring for attaching harness
- Optional extra spray hood

Peninsular chin support tilts your neck back and keeps your airways clear

Unique buoyancy distribution allowing you to move your arms more freely

150N Inflation chamber providing exceptional turning solutions even when wearing heavy clothing

FUSION 3D

LIFEJACKETS FOR CHILDREN

How to... choose a lifejacket for your child

Finding the right lifejacket for your child from the wide range of options available can feel a bit overwhelming, so we've put together this handy guide to help.

Where are you heading?

Think about where you'll be out on the water with your child, and choose a lifejacket accordingly; in the same way that you would choose a lifejacket with more buoyancy for yourself if you were heading offshore or wearing multiple layers of clothing. Another feature to consider is whether you require a harness attachment point*. Harness attachment points facilitate the use of safety lines, which are recommended when sailing in rough weather or during overnight passages.

***Never harness yourself or a child to a vessel travelling at high speed**

Foam or gas?

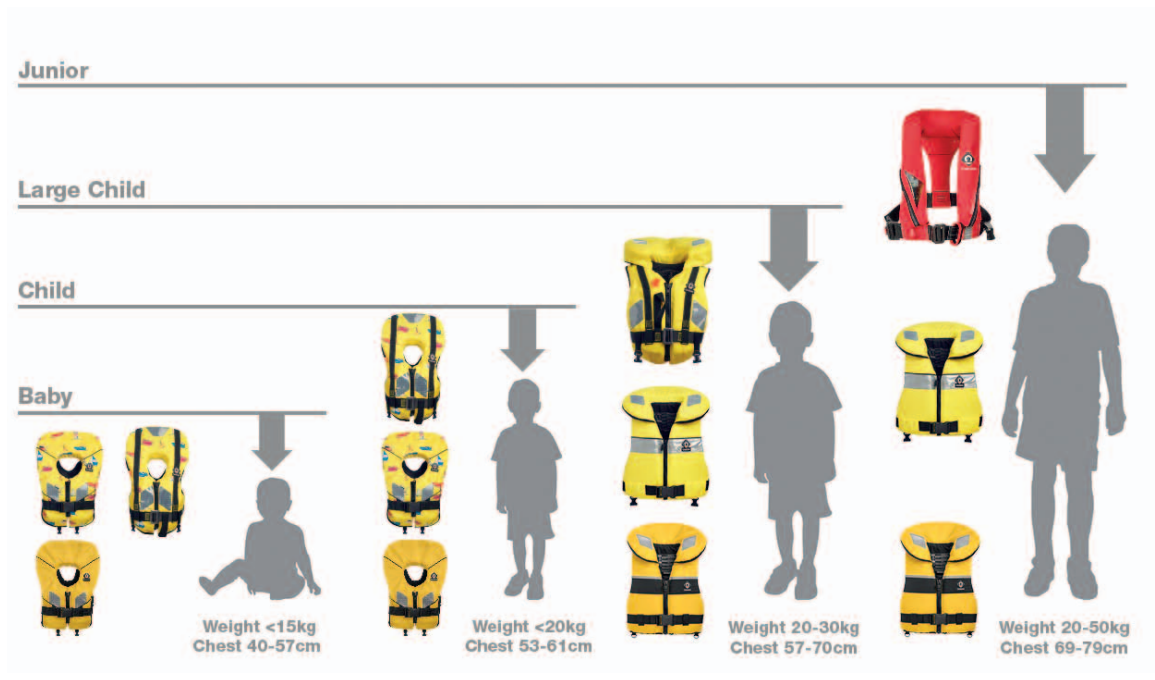

For little ones, inherently buoyant foam lifejackets are perfect, as they offer constant buoyancy. This type of inherently buoyant foam lifejacket will reduce fatigue during general in-water activities and is perfect for surface watersports and swimming. It is highly recommended to opt for a foam lifejacket for younger children as they have been uniquely designed to work with the child's size and weight distribution. For older children, a gas lifejacket might be a better option, these are not inherently buoyant but are designed to inflate automatically when in contact with water. These look more like adult lifejackets, and so might appeal more to pre-teens.

How much buoyancy?

100 Newtons (100N) is ideal for general in-water play and inshore use. However, if you're heading away from the shore, extra buoyancy is needed for the type of clothing worn when sailing offshore. Look for children's lifejackets with 150N of buoyancy. The increase in buoyancy results in greater mouth freeboard (distance between airway and waterline), quicker spin times, and increased collar stability.

What size do I need?

Sizing

Correct fit is essential! Children should never wear adult lifejackets; a lifejacket definitely isn't something that they can 'grow into'. Make sure all adjustments (including crotch straps!) are always used and adjusted to the 'comfortably tight' position. A lifejacket that isn't a suitable size for them won't work as it should. Don't panic, all Crewsaver children's lifejackets come with a handy size guide; be sure to follow these guidelines to select the correct size lifejacket for your child. If you're ever unsure, seek expert advice.

A lifejacket isn't something you can grow into!

Oliver's Adventure

Look out for the Oliver's Adventure storybook. This book was designed as an interactive tool to help parents and guardians teach their children the importance of lifejackets in a fun and interactive way. All new children's foam lifejackets will come with the storybook and the characters can be found printed on both the Supersafe 150N and Euro 100N lifejackets.

Crewfit 150N JUNIOR

The first 3D designed lifejacket for juniors, helping to ensure your little ones remain as comfortable as possible when out on the water. Safety is paramount on the Crewfit 150N Junior, a unique bladder design with a peninsular chin support offers the most advanced performance solutions available today.

- A transparent indicator 'window' showing the status of the inflation mechanism
- Robust outer cover
- Side waist adjuster
- Crotch strap
- Soft loop D-ring for attaching harness

See page 21 for more details

Code	Description	Colour	Rearm kit
9005RA	Automatic Harness	Red	11035

Supersafe 150N

The Supersafe 150N is perfect for those venturing further offshore including ocean sailing and is one of the only foam lifejackets for children in the 150N 'Ocean' rated category. The increase in buoyancy results in greater mouth freeboard, quicker spin times and increased collar stability. Complete with a built-in safety harness, the Supersafe 150N accommodates the use of a safety line which is recommended when sailing in rough conditions or during night passages.

- 150N of inherently buoyant super soft PVC foam
- Reflective taping
- Built-in safety harness
- 'Baby' and 'child' sizes have additional seat support
- Crotch straps fitted as standard
- Waist adjustment
- Lifting becket
- Comes with Oliver's Adventures storybook

Baby & Child

Large Child

Code	Description

10176	Large Child

Euro 100N

The Euro 100N inherently buoyant foam lifejacket is perfect for inshore use, including surface watersports and swimming. The 100N of buoyancy reduces fatigue during general in-water activities whilst still providing a fun and comfortable fit. The super soft foam lifejacket comes in 4 sizes featuring character's from Crewsaver's popular 'Oliver's Adventure' storybook which teaches children the importance of wearing a lifejacket.

- 100N of inherently buoyant super soft PVC foam
- Reflective taping
- 'Baby' and 'child' sizes have additional seat support
- Crotch straps as standard
- Waist adjustment
- Comes with Oliver's Adventures storybook

Children's Lifejackets

Customise Your Lifejacket

Lifejackets come in many shapes and sizes but there are integral safety features that all designs will have in common.

For example, a gas lifejacket that is ISO approved must include retro reflective tape, an accessible whistle and a lifting becket.

Other features such as a light and hood are optional extras, which may or may not be included when you pick a lifejacket off the shelf. Make sure you know what your lifejacket includes and how everything works.

Spray Hood

The Spray Hood stores in the lifejacket after being fitted. Designed to fit over your head and inflated lifejacket to make you more visible and to reduce the amount of spray you inhale. Compatible with Crewfit 180N Pro

- Stored inside your lifejacket
- Fits over the wearer's head and the inflated lifejacket
- Reduces spray being inhaled
- Makes the wearer more visible

Code	Description
10056	Compatible with Crewfit 180N Pro
SUPFITHOOD150HF/180	Crewfit 180N Pro Spray Hood - Supply & Fit

Pouch Spray Hood

The Spray Hood stores in a pouch on your waist belt to keep at hand for when the conditions deteriorate. Designed to fit over your head and inflated lifejacket to make you more visible and to reduce the amount of spray you inhale. Compatible with Crewfit 165N Sport.

- Stored in a black pouch on the waist belt
- Fits over the wearer's head and the inflated lifejacket
- Reduces spray being inhaled
- Makes the wearer more visible

LIFEJACKET ACCESSORIES

ErgoFit Safety Knife

The ErgoFit Safety Knife is designed to be safe to carry with you at all times on the water, but highly effective should you need to cut through ropes in an emergency. Highly visible, it is lightweight and supplied in a slim, durable casing that can be attached to your lifejacket.

- Safety blade for safe stowing
- Constructed from durable nylon plastic
- Ergonomically designed for fast release cut
- Carry pouch included for attachment to lifejacket

1310-SK

Smartfind S20 AIS MOB Device

Designed to be fitted to a lifejacket the S20 Smartfind is ready to be activated in the event of a man overboard situation. Once activated the unit then transmits your position and identity via GPS back to your vessel, enabling a fast rescue.

- Automatic deployment when correctly fitted into the ErgoFit and Crewfit Pro lifejackets
- Flashing LED indicator light makes you easier to spot at night
- 24 hours continuous transmission
- 7 year battery storage life

Code	Description
11084	Smartfind S20 AIS MOB Device
SUPFITS20	Smartfind S20 AIS - Supply & Fit

Spare Whistle

Keep one on your lifejacket and waterproof jacket so that you always have it to hand should you need it. Designed not to clog so it works perfectly when you really need it to.

10677

Example: Crewfit 165N Sport with added spray hood and CSL light

"brightest light" in PBO test
Boat Owner

Surface Light (CSL)

This flashing light meets all relevant safety standards to keep you visible in the worst of scenarios.

- SOLAS approved
- High powered white LED light
- Flashes for optimum visibility
- Optimum output levels exceed 3cd
- Powered by lithium-ion battery
- Activates on contact with water
- Includes attachment for oral tube, suitable for lifejackets with no specific light attachment point

Code	Description
10220	Surface Light (CSL)
SUPFITCSL	Surface Light (CSL) - Supply & Fit

Safety Lines

For use with your safety harness, these safety lines are available with or without a load indicator. The load indicator option activates when the line is placed under an extensive load of 7000-9000 newtons. There is additionally a warning label which, when exposed, means the safety line should be replaced as soon as possible.

- Coloured yellow for visibility
- Load indicator and warning label

View product details on page 51.

Crotch Straps

Fit to your inflatable lifejacket's or buoyancy aid's attachment points for a more secure fit and to hold you in a safer position in the water. Can be retro fitted to all inflatable lifejackets.

- Detailed instructions included to ensure correct fitting

10032

Lifejacket Bag

With multiple handles the Crewsaver lifejacket bag is a great solution for transporting and storing lifejackets when not in use. The universal fit can hold approximately 4-5 lifejackets.

BUOYANCY AIDS

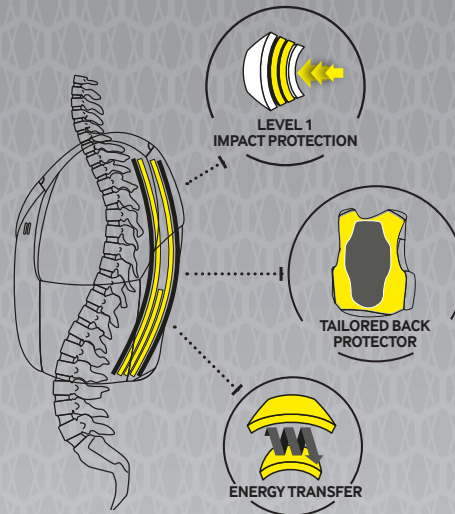

Revolution in Buoyancy Aid Technology

A large percentage of the boating world still do not wear any kind of personal flotation device. As a manufacturer of integral safety equipment the challenge for Crewsaver has been to reduce this number through the design of comfortable and stylish buoyancy aids suitable for a multitude of watersports activities. So whether you are sailing recreationally or racing, powerboating or paddling, this range will provide the perfect buoyancy aid for you.

FUSION 3D

Uniquely contoured soft foam paneling moulds to the shape of your body to provide an unrestricted and comfortable fit - so comfortable you will forget you are wearing it.

Stretch-to-fit breathable shoulder pads

Hydration tube exits

Removable hands-free Spare Air attachment point

Fusion 3D contoured soft foam paneling

Low profile sculpted design

Ergonomic curved zip

Durable outer cover material

Stretch-to-fit breathable side panels

Airmesh airflow technology

ERGOFIT 50 EX

With added ErgoFit Safety Knife & Spare Air

THE COMPLETE BUOYANCY AID RANGE

Just like the popular Crewsaver Fusion 3D lifejacket range, the new buoyancy aids feature Fusion 3D technology to provide a uniquely unrestricted and comfortable fit. The range, consisting of five trailblazing designs, features combinations of lightweight and soft contoured buoyancy foam which is encased in finely tailored covers to support the designed-to-fit profile.

ErgoFit 50N EX

A revolution in buoyancy aid technology.

The ErgoFit 50N EX 'High Impact' buoyancy aid, a revolution in personal safety equipment, providing the most advanced safety specification a buoyancy aid has ever offered to date. Through the partnership with Artemis Racing, Crewsaver was able to develop this innovative buoyancy aid. Now this same technology has been made available to all sailors, giving everybody the opportunity to benefit from the same safety and performance technology as an America's Cup sailor!

- Breathable airflow technology
- Low profile sculpted design
- Dual adjustment for optimal fit
- Large slimline front pocket
- Removable hands-free Spare Air pocket
- Concealed back pocket for hydration pack
- Hydration tube exits
- Stretch-to-fit breathable side and shoulder panels
- Ergonomic curved zip
- Quick access line cutter stowage
- Available with and without Forcefield body armour protection

With added ErgoFit Safety Knife & Spare Air

LIFERAFTS

When it comes to the worst, you require the best.

With over 60 years of industry experience, Crewsaver is recognised as one of the foremost suppliers of lifejackets and marine safety equipment in the world in both the leisure and commercial sectors.

Being a part of Survitec gives us the opportunity to provide a liferaft service solution that is unmatched across today's markets. Our mission is to continually strengthen our position as a leading global liferaft supplier to the marine industry through customer focus, product excellence and technical innovation.

Combined with our unique lifejackets, Aurora distress signals, and safety equipment alongside McMurdo emergency beacons, Crewsaver liferafts create the most comprehensive safety range available. So you can be rest assured - when it comes to the worst, that you have the best.

SERVICING

Survitec has an extensive network of service stations globally to help ensure an effective and efficient servicing process for your long term convenience and continued safety. In addition, the rafts come complete with a 12 year warranty providing they are serviced by a Crewsaver approved service station.

INCREASED SPECIFICATION IMPROVING SAFETY & PERFORMANCE.

Every year hundreds of leisure craft get into distress in open, coastal and inland waters. Among the most common incidents are fires, collisions or rogue waves therefore it is essential you equip your vessel to ensure the safety of all on board. Crewsaver has developed a liferaft range to suit all areas of the market. So no matter what level you are operating at, there is a high quality and competitively priced liferaft for you.

ISO Ocean Liferaft

Using our skills and expertise in the design and manufacture of both liferafts and lifejackets we have created the most advanced specification ISO Ocean liferaft yet. The Crewsaver ISO Ocean liferaft improves both safety and performance for you and your crew. It is approved to ISO 9650-1 standards and includes an extended three year service period. Manufactured using highly durable, long lasting Polyurethane (PU) coating helping to ensure the raft remains flexible, abrasion resistant, highly reliant, and chemically inert.

- Superb value coupled with high manufacturing quality and standards
- Easy to transport with a choice of valise or small, lightweight container with side handles
- High volume of water pockets to ensure maximum stability (4 Man - 2 x 84 L water ballast pockets. 6, 8 and 10 Man - 3 x 84 L water ballast pockets. 12 Man - 5 x 60 L water ballast pockets)
- A semi-rigid boarding ramp for quick, easy and safe boarding
- Tough polyurethane coated nylon canopy
- Simple zip closed canopy door
- Interior and exterior lifelines for extra safety in heavy seas
- External strobe light to aid night location by search and rescue teams & Internal LED light
- Rainwater catcher and collection system located on the rear of the canopy
- Lookout sleeve located on the side of the canopy
- Emergency ration packs available for under or over 24 hour rafts

Crewsaver

■ Rainwater catcher on the rear of the canopy

■ High visibility SOLAS standard reflective tape to aid visibility

■ Internal SOLAS standard LED light

■ Interior and exterior lifelines help occupants stabilise themselves in heavy seas

■ Easy to locate righting lines in case of accidental capsize

■ External SOLAS standard strobe light attached to the roof of the canopy, makes it easier for search and rescue teams to locate in darkness

■ Lookout sleeve located on the side of the canopy

■ Simple zip-closed canopy door

■ Thermally insulated floor

■ A semi-rigid boarding ramp and webbing ladder for quick, easy and safe boarding, in addition to interior and exterior lifelines

■ High volume water ballast pockets ensure maximum liferaft stability when inflated
- 4 Man - 2 x 84 litre water pockets
- 6, 8 & 10 Man - 3 x 84 litre water pockets
- 12 Man - 5 x 60 litre water pockets

■ PU tubes with taped corners to aid longevity

■ Exterior pressure relief valves ensure excess CO₂ is not released into the liferaft

■ The canopy is manufactured in a tough Polyurethane (PU) coated nylon - 170g/sqm

ISO Liferaft

The Crewsaver ISO liferaft is the ideal solution for those looking for a high quality yet affordable ISO liferaft, designed to meet ISO Type 1 standard and suitable for both commercial and recreational activity including those operating under MCA Code of Practice requirements (extra grab bag required).

- Type A ISO 9650-1 Type 1 approved
- Easy to transport with a choice of valise or small, lightweight container with side handles
- Internal and external lights
- Four 63 L weighted water ballast pockets
- Boarding platform on the front of the raft and boarding ladder on the rear
- Bright orange top canopy which can be opened and closed from either side of the raft depending on conditions
- Rainwater catcher and collection system located on the rear of the canopy
- Lookout sleeve located on the rear of the canopy
- High quality PVC orange tubes to ensure longevity and aid visibility
- 3 year service interval
- Optional extra cradle, webbing assembly and HRUs are also available

Hammar H20 Standard SOLAS HRU

The Hammar H20 is a Hydrostatic Release Unit (HRU) designed to fit liferafts of all shapes and sizes. It is made of glass fibre reinforced nylon, which prevents it from corroding. The Hammar H20 needs no annual service, maintenance or spare parts. You simply install a new one every two years and dispose of the old one. With the environment in mind, the old unit is 97% recyclable.

For smaller liferafts (from 4 persons and outside SOLAS regulation) we recommend Hammar H20 Small Rafts model with a special weak link, identified by the green lower thimble (breaking strength 1,2 ± 0,4 kN).

LSHRUHM

Hammar H20 for Small Rafts HRU

This model is designed for liferafts from 4 up to 12 persons and outside SOLAS regulations. The Hammar H20 for small rafts consists of a double looped white rope line, a release mechanism and a Red Weak Link with a green lower thimble (breaking strength 1,2 +/- 0,4 kN). The Hammar H20 needs no annual service, maintenance or spare parts, but must be replaced after 2 years of use.

The Crewsaver Aurora range has something to offer the recreational boater at every level; Ranging from daytime compact Lifesmokes, to the brand new, innovative Sky-Lite 2 Star Aerial Distress Flare.

RORC Flare Package

Crewsaver's RORC Flare Package is fully compliant for RORC racing providing a comprehensive range suitable for a multitude of conditions to signal distress in an emergency situation. This package also contains white handflares that can be used as a collision warning or to illuminate small areas. The RORC Flare Package includes a buoyant and waterproof 12lt poly bottle, ideal for storage.

- 4 x Red Parachute Rocket
- 4 x Red Handflare
- 2 x Lifesmoke
- 4 x White Handflares
- 1 x 12 L Poly Bottle

11609

Offshore Flare Package

For use when more than 7 miles from land. Crewsaver's Offshore Flare Package contains a comprehensive combination of propelled and handheld flares of both long and short visibility range designed to signal distress in an emergency situation. The buoyant Lifesmoke can be used to indicate position and wind direction once potential rescuer is sighted. This package also includes a buoyant and waterproof 12lt poly bottle, ideal for storage.

- 4 x Red Parachute Rocket
- 4 x Red Handflare
- 2 x Lifesmoke
- 1 x 12 L Poly Bottle

11610

Coastal Flare Package

For use when less than 7 miles from land, to raise alarm and pinpoint your position by night or day. The Crewsaver Coastal Flare Package contains both long and short range distress signals designed to be used in an emergency situation. The Orange Handsmoke can also be used to indicate position and wind direction once potential rescuer is sighted. This pack is supplied with a buoyant and waterproof 3lt poly bottle, ideal for storage.

- 2 x Red Parachute Rocket
- 2 x Red Handflare
- 2 x Orange Handsmoke
- 1 x 3 L Poly Bottle

11611

Aerial Inshore Flare Package

For use when less than 3 miles from land, to raise alarm and pinpoint your position by night or day, includes the Sky-Lite aerial flare which has additional visibility of 10-12 kg (6-7 miles).

- 2 x Sky-Lite 2 Star Red Aerial Distress Flares
- 2 x Red Handflare
- 2 x Orange Handsmoke
- 1 x 3 L Poly Bottle

11612

Inshore Flare Package

For use when less than 3 miles from land, to raise alarm and pinpoint your position by night or day. The Aerial Inshore Flare Package is a great short to medium range flare pack. This unique package features the innovative Sky-Lite 2 Star Red Aerial Flare that propels 2 red flares to 60m. This compact flare package includes a waterproof and buoyant 3lt poly bottle, ideal for storage.

- 2 x Red Handflare
- 2 x Orange Handsmoke
- 1 x 3 L Poly Bottle

11613

Sky-Lite 2 Star Red Aerial Distress Flare

This flare propels not only one but two red flares to 60m (200ft) by hand held launcher. Provides a new alternative to the distress flare market when multiple flare use is required. Compact and hand held this flare can be used to signal distress by day or night.

- Visibility: 10-12km (6-7 miles).
- Light intensity: 10,000 candela
- Flare type: 2 propelled red flares
- Burn time: 5.5 seconds
- Height: 60 m (200 ft)
- Used to signal distress day or night
- Up to 4 year life

AURORA

11600

Day & Night Distress Signal

This handheld distress signal is compact and easy to operate. The signal consists of a red flare at one end and orange smoke at the other.

- 15,000 candela red flare at one end for night & day use
- Flare burn time: 20 seconds
- Dense orange smoke at the other end for daytime use
- Smoke duration: 18 seconds
- Ignition: Pull wire
- Both ends can be fired independently and can be doused in water after firing, allowing the unused end to be stowed until required
- Housed in a rugged, corrosion and water resistant case
- Up to 4 year life

AURORA

11606

Red Parachute Rocket

The Aurora Red Parachute rocket is a long range aerial distress signal. Designed to withstand exceptional environmental exposure and to perform reliably even after immersion in water.

- Ejects a red parachute flare at altitude 300 m (1000 ft)
- Visible up to 30 miles away
- Burn time: 40 seconds
- Light intensity: 30,000 candela
- Ignition: Pull wire
- Up to 4 year life

AURORA

11603

White Handflare

The White Handflare is for use as a collision warning signal or for illumination of small areas. Designed to withstand exceptional environmental exposure and to perform reliably even after immersion in water. Also available is the similar Red Handflare, which is used to signal distress.

- Produces hot white flame
- Burn time: 60 seconds
- Light intensity: 2,500 candela
- Ignition: Pull wire
- Unique telescopic handle making it very compact for storage and easily extended for use
- Up to 4 year life

11605

Red Handflare

For use by day and night, the Red Handflare is a short range distress signal used to pinpoint position when potential rescuer is sighted. Designed to withstand exceptional environmental exposure and to perform reliably even after immersion in water. Also available is the White (collision warn-off) Handflare.

- Hot red flame
- Burn time: 60 seconds
- Light intensity: 15,000 candela
- Ignition: Pull wire
- Used to signal distress and pinpoint location day or night
- Weight max: 176 g (6.2 oz)
- Up to 4 year life

11601

Orange Handsmoke

The Orange Handsmoke is a short range, hand-held marine distress signal for daytime use to indicate position and wind direction once potential rescuer is sighted.

- Produces dense orange smoke for 60 seconds
- Ignition: Pull wire
- Distress signal for daytime use
- Up to 4 year life

11602

Lifesmoke

The Lifesmoke is a buoyant, compact, daylight distress signal designed to be easy and safe to handle. It provides effective position marking during rescue operations and can be used to indicate wind direction.

- Produces dense orange smoke for a minimum of 3 minutes
- Buoyant
- Ignition: Percussion ignitor with 2 seconds safety delay.
- Safe to use on oil or petrol covered water.
- Distress signal for daytime use
- Up to 4 year life

11604

Odeo Distress LED Flare

The Odeo Distress flare illuminates for around 8 hours at full illumination. Because no pyrotechnics are used, it is totally safe when switched off, and because it uses battery power (high power Lithium or Alkaline cells), it can even be safely posted or carried in baggage on flights.

- No heat, no flames, no risk
- No explosive compounds for shipping or disposal
- Increased Safety
- Longer operating life – now 8 hours 25% more than the ODEO Mk3
- Supplied with lanyard
- Search and Rescue aircraft safe
- Ideal for diving; tested to 50 meters for 1 hour
- Floats
- Easy user battery change
- Now includes IR LED for NVG search and rescue
- SOS Signal built in
- Small compact design (grab bag item)
- Simple activation (with wet or gloved hand)
- Dual function including flicker and SOS strobe

900251

Poly Bottles

Robust and buoyant containers which are the ideal solution for storing distress flares. Complete with handle and textured lid for easy opening and handling in an emergency.

Code	Size	Product
11607	3 L	Small Poly Bottle
11608	12 L	Large Poly Bottle

Distress Signals

MCMURDO PRODUCTS

McMurdo survival products - a world leader in the design and manufacture of state-of-the-art emergency beacons - including EPIRBs and PLBs.

AIS or PLB? We have the answers

Whether you work or play on the water, having the right search and rescue devices is critical for your personal safety. Whilst an EPIRB will indicate the location of the boat in the event of an emergency, AIS Man Overboard devices (AIS MOB) and Personal Locator Beacons (PLB) stay with the individual to ensure their location is also tracked.

Personal Location Beacon (PLB)

- ✓ Sends distress signal to official COSPAS-SARSAT search & rescue (SAR) network
- ✓ Primarily designed for global rescue
- ✓ Recommended for solo sailors and those operating in remote locations away from local help

Automatic Identification System Man Overboard (AIS MOB) devices

- ✓ Transmit distress signal to local vessels with AIS receivers and AIS enabled chart plotters within a 4 mile radius (minimum)
- ✓ Designed to cut recovery time by enabling crew to locate and rescue. This drastically improves chances of survival
- ✓ Recommended for those operating where help is close at hand, from crew or other local vessels equipped with AIS receivers and AIS enabled chart plotters

Fast Find 220 PLB

Explore the world with peace of mind. The Fast Find 220 Personal Locator Beacon is a lifesaving distress beacon with integral buoyancy pouch, designed for marine enthusiasts and adventurers. It uses advanced technology packed into a lightweight, palm sized unit to transmit your ID and position to the search and rescue satellites. Within minutes rescuers are alerted to your situation and receive regular position updates. The emergency services then home in on your beacon's transmission to find you. It's all you need to contact help should the unexpected happen.

- 406/121.5MHz PLB
- Easy to operate
- No subscription needed
- High brightness LED SOS light
- Minimum 24hr continuous operation
- 6 year battery storage life
- Self test facility with battery use indicator
- Supplied with flotation pouch

11060

Smartfind S20 AIS MOB Device

Designed to be fitted to a lifejacket the S20 Smartfind is ready to be activated in the event of a man overboard situation. Once activated the unit then transmits your position and identity via GPS back to your vessel, enabling a fast rescue.

- Automatic deployment when correctly fitted into the ErgoFit and Crewfit Pro lifejackets
- Flashing LED indicator light makes you easier to spot at night
- 24 hours continuous transmission
- 7 year battery storage life

11084

Smartfind G8 AIS

MEOSAR Compatible® for enhanced detection and location performance, the G8 range includes an industry first; a four-frequency EPIRB, combining the global alerting of 406 MHz with the localised locating and tracking power of AIS.

- Faster alert detection on the 406 MHz frequency through MEOSAR compatibility
- The world's first QUADROTECH® EPIRB, with four search and rescue frequencies, the SmartFind G8 AIS supports the Alert, Locate, Tracking and Recovery elements of search and rescue
- Greater location accuracy by receiving GNSS coordinates from a wider range of satellite constellations
- World's first convergence of 406 and AIS, combining the global alerting of 406 MHz with the localised locating and tracking power of AIS
- The only EPIRB manufacturer that also builds and supports the Cospas-Sarsat ecosystems infrastructure, making the benefits of MEOSAR a reality

Smartfind G8 AIS in Auto Housing

11111	MCMURDO G8 AID SMARTFIND - AUTO

G5 Smartfind EPIRB

An Emergency Position Indicating Radio Beacon (EPIRB) is a safety device carried by a vessel to alert search and rescue services and allow them to quickly locate you in the event of an emergency. The Smartfind+ G5 GPS is a GMDSS compliant distress radio beacon essential for aiding rescuers reach survivors within the first 24 hours of an incident at sea. Manual release bracket or auto housing options available.

- 406/121.5MHz GPS EPIRB
- International approval
- Suitable for both leisure and SOLAS convention applications
- High performance multi-channel GPS - typical accuracy less than +/- 62 m (Plus version)
- UN3091 battery (hazardous class 9) for easy transportation
- High brightness flashing LED light
- Minimum 48hr continuous operation
- 6 year battery storage life
- Comprehensive self test facility with battery use indicator
- 5 year warranty

G5 EPIRB in Auto Housing

11076	G5 SMARTFIND PLUS GPS - AUTO

Smartfind S10 AIS MOB Device

The Smartfind S10 is designed to be activated in the event of a man overboard situation or other personal crew emergency. The unit transmits your position and identity via GPS back to your vessel, enabling a fast rescue.

- Flashing LED indicator light makes you easier to spot at night
- 24 hours continuous transmission
- 5 year battery storage life

11065

Smartfind S5 SART

Stored in a quick release carry off bag, the rugged S5 Smartfind is buoyant and waterproof to a depth of 10 m. When activated, the S5 transmits an alert message.

- High visibility
- Shoulder strap to aid carrying in emergency evacuation
- 96 hours of continuous transmission

11079

S4 Rescue SART

Designed to be stored in a liferaft or as a carry off device, the S4 Rescue SART is buoyant and waterproof to a depth of 10 m. When activated, it detects radar signals from other vessels or aircrafts and automatically transmits a response signal that appears on the other vessel's radar display.

- Suspend in liferaft or mount higher using the integrated extending pole
- 96 hours operation

11073

Spare parts

E5/G5 Smartfind Auto Float Free Housing*

Supplied with a float-free housing, the Smartfind E5 or G5 EPIRB automatically deploys and activates the EPIRB if the boat is sinking.

* Excludes HRU kit

11078

HRU Replacement Kit

Replacement hydrostatic release unit to fit the following EPIRB's.

- E4
- G4
- Precision
- Rescue
- E5
- G5
- RT260M
- McM406A

11072

Accessories

Grab Bag

Designed for holding emergency equipment, the Grab Bag is waterproof, buoyant which is perfect for marine use.

- Highly visible
- Buoyant
- Waterproof

11063

Grab Bag XL

Designed for holding emergency equipment, the Grab Bag XL is a sizeable waterproof, buoyant bag which is perfect for marine use.

- Highly visible
- Buoyant
- Waterproof

11064

Hamble Horseshoe Buoy, Bracket & Light Set

The Hamble Horseshoe buoy, bracket and light set is one of the most compact lifebuoy sets on the market today. Ideal for both yachts and motorboats, this is an essential piece of equipment in case of a man overboard.

- Flashing, SOLAS approved LED light
- Available in white or yellow
- Compact solutions
- Lithium battery
- Maximum 5 year life on the battery

Super soft foam

Light operates using a lithium battery with 5 year life

Flashing, SOLAS approved LED light

Purchase as individual items to upgrade your existing lifebuoy

Horseshoe Buoy

Ideal for both yachts and motorboats, this is an essential piece of equipment in case of a man overboard.

- Layered EPE foam for the ultimate in buoyancy
- Tough outer PVC material to ensure longevity
- Available in white or yellow

Code	Description
1320-BUOY	Horseshoe Buoy
1321-BUOY	Horseshoe Buoy

Hamble Horseshoe Light

The Hamble Horseshoe Light uses the latest LED technology featuring low current consumption and enhanced reliability. A bright flashing light to help enhance visibility should a crew member fall overboard during the night.

- SOLAS Approved
- Maximum 5 year life on battery
- Over 30 m drop height
- Lithium battery

900013

Hamble Horseshoe Bracket

Constructed from stainless steel the Hamble Horseshoe Bracket combined with the Hamble Light is the ideal solution for anyone looking to update their Crewsaver Horseshoe Buoy to be suitable for use at night.

- Constructed from stainless steel
- Easy installation

9000014

Throwing Strop

Ensure a fast rescue with just one piece of equipment. The throwing strop provides an innovative combination of both rescue line and lifting strop. A unique padded lifting strop enables a comfortable and accurate recovery.

- Durable outer fabric
- 30 m high-strength line
- Strop attached with strong Velcro for ease when stowing and throwing

1320-STROP

Lifeline

An essential piece of lifesaving kit that no boater should leave the dock without. Protected by a compact, durable and hi-visibility housing, the 20 m lifeline is constructed from 200D nylon to guarantee strength and performance even in extreme conditions.

1320-LIFE

Rescue Sling

The Crewsaver rescue sling provides a pre-shaped design ensuring easy donning so that a casualty can be recovered from the water safely and quickly should you be in an unexpected man overboard situation.

- Tough PVC outer fabric to aid long life
- 30 m high-strength line

1320-SLING

Safety Lines

For use with your safety harness, these safety lines are available with or without a load indicator. The load indicator option activates when the line is placed under an extensive load of 7000-9000 newtons. There is additionally a warning label which, when exposed, means the safety line should be replaced as soon as possible.

- Coloured yellow for visibility
- Load indicator and warning label

ErgoFit Safety Knife

The ErgoFit Safety Knife is designed to be safe to carry with you at all times on the water, but highly effective should you need to cut through ropes in an emergency. Highly visible, it is lightweight and supplied in a slim, durable casing that can be attached to your lifejacket.

- Safety blade for safe stowing
- Constructed from durable nylon plastic
- Ergonomically designed for fast release cut
- Carry pouch included for attachment to lifejacket

1310-SK

Crewlift 40 Bosun's Chair

A safe and comfortable bosun's chair is a prerequisite for when a crewman goes up the mast to check the rigging or to make essential repairs. The Crewlift 40 is a simple solution with advanced safety features built-in. Manufactured from strong PVC coated nylon with welded stainless steel attachment triangles and a removable wooden seat, it gives you confidence while you work overhead.

- Complete with an adjustable waist belt and thigh straps for a secure fit
- Detachable tool pouch and webbing tool rack to carry essentials safely and keep your hands free

11302

Mast Head Floats

Designed to give extra confidence to those new to sailing or learning new skills, mast head floats can help reduce the risk of boats inverting during a capsize. Available in 9 or 40 L of buoyancy, the Crewsaver Mast Floats have a heavy-duty fabric construction to ensure they work to their optimum all season long.

- Designed in conjunction with sailing centres in both the UK and abroad
- Only effective when correct buoyancy float is fitted - owners are responsible
- Not suitable for boats without anchoring

Please remember: Crewsaver Mast Floats do not guarantee to stop a boat inverting and their performance can be hindered by the conditions. Such conditions include a strong tide, wind, swell or incorrect righting procedure.

Code	Description
10085	Mast Head Float 9 L
10086	Mast Head Float 40 L

MARKER BUOYS

As used for the 2012 Olympic Games, Crewsaver inflatables are excellent quality offering great visibility and high durability. In addition, Crewsaver also offers a branding and custom made service; special colours, shapes and sizes are all a possibility if required.

Cylindrical Buoy

Constructed with durable double skin and inner inflation chamber. Stands up tall to aid visibility on long race courses.

- Hard wearing construction
- Comes with fitted mooring harness
- Standard bright orange for high visibility

Code	Buoy	Size	Description
3810-4'	Cylindrical	1.22 m	H1.22 m x D0.61 m (H4' x D2')
3810-5'	Cylindrical	1.22 m	H1.52 m x D0.76 m (H5' x D2'6")
3810-6'	Cylindrical	1.83 m	H1.83 m x D0.76 m (H6' x D2'6")

Dumpy Buoy

Easy to move around for forever moving race courses. Constructed with a durable double skin and inner inflation chamber.

- Hard wearing construction
- Comes with fitted mooring harness
- Standard bright orange for high visibility

Code	Buoy	Size	Description
3811-2'6	Dumpy	0.76 m	H0.76 m x D0.76 m (H2'6" x D2'6")
3811-5'	Dumpy	1.52 m	H1.62 m x D1.17 m (H6' x D3'10")

Pyramid Buoy

Constructed with a durable double skin and inner inflation chamber. The Pyramid buoy offers an alternative to the dumpy buoy.

- Hard wearing construction
- Comes with fitted mooring harness
- Standard bright orange for high visibility

Code	Buoy	Size	Description
10076	Pyramid	1.52m	Each edge 1.52m (Each edge 6')

Training Mark

This is an easy to use training mark that can be quickly and easily laid for a huge variety of training exercises. Easy to inflate by mouth on the water, it is twin-skinned for durability and comes complete with its own weight bag. Perfect for sailing schools and coaches.

- Simple training aid
- Mouth inflation
- Strap for easy recovery
- Inflatable twin skin and weight bag

Code	Buoy	Size	Description
10079	Inflatable training	1.9 m	Inflatable twin skin with weight bag mark buoy 1.9 m x 0.3 m (6'2" x 1')

Reinforced Training Mark

This bright orange training mark has a black stripe for high visibility and a strong PU coated nylon construction strengthened by webbing.

- High frequency welded inflator
- Includes flag pole holder and pocket for strengthening baton
- Internal 'sand' bag for maintaining vertical altitude
- Three webbing handles and strengthened webbing construction
- Can be packed flat when sand bag is empty

Code	Buoy	Size	Description
10074	Reinforced training mark	1.3 m	Inflatable single skin 1.3 m x 0.3 m (4'2" x 1')
10075	Insert for reinforced training mark	1.3 m	Inflatable twin skin with weight bag 1.9 m x 0.3 m (6'2" x 1')

Crewsaver

WATERSPORTS CLOTHING

Race Top

The Crewsaver Race Top sets the bar for breathable performance thermals. Its waterproof fabric (with a 10 K hydrostatic head) is fused with soft internal fleece lining providing the thermal protection needed to stay on the water for longer. Another benefit is the additional thermal protection offered by the foldable collar for optional face coverage. Lightweight and compact, the Crewsaver Race Top is an unmissable addition for any watersport enthusiast

- Waterproof fabric to 10 K and breathable to 5 K
- Fleece lined
- Fully taped seams
- Thermal collar with elastic adjustment
- Reflective sleeve print
- Adjustable neoprene waistband
- Adjustable PU cuffs
- Articulated arms for movement

Sizes J S M L XL

6971

Spray Top

The Crewsaver Spray Top is the perfect solution for those seeking the next level in performance technology. The durable fabric has a hydrostatic head waterproof rating to 20 K and is breathable up to 6 K, making this one of the most advanced and affordable spray tops on the market. With uniquely tailored panels, the articulated shape of this spray top provides much sought-after unhindered freedom of movement.

- Durable waterproof fabric to 20 K and breathable to 6 K
- Fully taped seams
- Front accessible pocket with plastic zip and water drainage
- Reflective sleeve print
- Adjustable neoprene waistband
- Adjustable PU cuffs
- PU Adjustable neck seal
- Articulated arms for movement

Performance Clothing

Zip Boot

If you prefer the additional foot protection and stability afforded by a more substantial zip-up boot over a slipper style boot, the zip boot design is the ultimate sailing footwear for you. Constructed from 5 mm neoprene, it is warm and durable while the boot style gives plenty of reinforcement around the toes, heel and hiking area.

- 5 mm neoprene construction for warmth and durability
- Side zip with neoprene gusset for easy donning
- Reinforced toe
- Reinforced hiking and heel area protection
- Moulded high grip sole
- Neoprene gusset back up

Sizes 3 – 13

6940

3/4 Boot

When you're racing or training, hiking or trapezing, you'll want footwear that gives you support, grip, flexibility and a secure foothold around the boat. The 3/4 Boot gives you all that, plus, the warmth of 5 mm neoprene. It provides outstanding performance in all areas so that you can take your footwork for granted.

- Ideal for hiking and trapezing
- 5 mm neoprene construction for warmth and durability
- Front entry with Velcro fastening ensures bespoke fit
- Heel, arch and toe support
- Reinforced front hiking support
- Moulded high grip sole

Sizes 4 – 13

6941

Granite Shoe

With a 3mm neoprene construction, the Granite Shoe is a warm slipper suited to all types of watersports.

- 3mm Neoprene construction for warmth
- Velcro front entry for easy donning
- Moulded high grip sole

Sizes 2 – 11

6943

Aplite Shoe

The Aplite is a superb neoprene beach shoe with a moulded high-grip sole for comfort and foot protection. With the drawstring at the ankle providing a secure fit, you'll feel nimble both on and off the water.

- 2.5 mm neoprene construction
- Drawstring ankle adjustment
- Moulded high grip sole

Sizes Child 10 – Adult 11

6942

Slate Sock

Ideal for light use on their own or as an additional insulation layer in your existing boots, these neoprene pre-shaped socks provide warmth, comfort and grip.

- Glued and blind stitched neoprene construction
- 3D shaped for maximum comfort
- Anti-slip printed sole for grip

Sizes 4 – 11

6946

Crewsaver Boots

An excellent boot for use in all types of marine environments. The specially constructed inner keeps you warm and comfortable while the razor-cut grip keeps you surefooted no matter how wet the deck.

- Drawstring and gusset*
- Excellent for launching and recovery
- Tailored marine environment sole for wet slipways, decks or paths
- Broad foot design for easy donning and removal
- Natural rubber construction for durability
- Dry Line inner for warmth and comfort
- Available in Long and short options

*On Long option

Footwear

Tri-Season Glove

Neoprene construction to help keep you warm and dexterous even on the colder days. Complete with Amara leather reinforcement on the palm, fingers and thumb, the Tri-Season glove gives the protection and durability you need when on the water in tough conditions or for long periods of time.

- Neoprene and Amara construction
- Amara pull tab on wear point
- Coated Amara protection on the palm, fingers and thumb
- Amara knuckle panel for protection and durability
- Palm reinforcement for protection against rope burn

Sizes J4 J5 XS S M L XL XXL

6952 

Three Finger Glove

With its neoprene construction and Amara protection, the Three Finger glove is the perfect 'multi-sport' glove. Three full fingers plus cut-offs on the thumb and forefinger combines what we're all seeking for in a glove; warmth, comfort and dexterity.

- Amara knuckle panel
- Neoprene wrist for comfort
- Printed Amara on fingers and palm for grip and long life
- Super flexible spandex for increased movement
- Knuckle panel for protection and durability
- Printed Amara reinforced forefinger
- Three full fingers, thumb and forefinger cut off for dexterity

CENTRE RANGE

Specifically designed for sailing school and activity centre use, this range combines both durability and quality. Unique colour coding and all season availability, adds a reassuring and professional dimension to your operations.

Centre One Piece Wetsuit 3.5mm

Keep your clients warm, comfortable and enjoying every moment of their time afloat with the durable 3.5 mm neoprene Centre One Piece Wetsuit.

- 3.5 mm neoprene construction
- Back zip for all sizes
- Adjustable ankles for child and junior sizes

Colour coding makes it easy for everyone to pick out the right size, speeding up the kit selection process.

Sizes CH LC J S M L XL XXL

5908

Yak Zip Long John

The Zip Long John keeps you warm and comfortable on the water with an all-over 3mm neoprene construction. The front zip makes it easy to put on while the printed knees and backside protection make the suit ideally suited to all types of paddling.

- 3mm Neoprene with flatlocked seams
- Two way heavy duty zip
- Printed knee and backside protection

Sizes J S M L XL

5403-A

Yak Step-In Long John

Keep warm and flexible on the water with the step-in Long John. Designed specifically for paddling with printed backside and knee protection, it features 3mm neoprene yet remains easy to get into courtesy of the 1.5mm upper body.

- Flatlocked seams

Sizes S M L XL

5405-A

Crewsaver

Centre Range

Centre Smock Top

Constructed to be as durable as it is comfortable and practical, the Centre Smock Top covers all bases with reinforced elbows, strengthening on the stress points, over locked edges, taped seams, a pull-tight hood and hand-warmer pocket.

- Drawstring and cordlock on hem
- Bartacked stress points for strength
- All raw edges over locked for durability
- Reinforced hanging loop
- Taped seams
