## Marinepool Winter Collection 2013/2014 Marinepool goes Ice Sailing

**October 2013, Munich, GER**

The Marinepool life style collections are designed with all the experience and expertise gained over more than 22 years in the area of performance sailing clothing, and are the authentic match to the technical clothing lines.

In time for the coming winter month Marinepool presents the new multi-faceted winter lifestyle collection for the upcoming cold season, which ideally complements the summer collections.

Waisted cuts, elaborate embroideries and coloured applications in the season's trend colours orange and yellow underline the warm style of the winter collection with both fashionable and elegant details.

Careful attention is paid to functionality and quality: indeed, the utilized materials comprise an interesting

combination of down, combed wool, micro fleece in collar and pockets, water-repellent membranes as well as shiny Nylon and intelligent TecWool.

Furthermore, clever details including for instance the effect of twin-layer jackets, removable snow protections and hoods or integrated MP3/mobile phone pockets show a high level of creativity.

The smart casual Marinepool winter collection presents a sportive and contemporary look for men and glamorous - feminine look for women - perfect for an ice sailing trip (why not to the Lake Tahoe which gave the collection its name), a walk along the snowy water front and of course for evenings in the cosy atmosphere of an open fire place.
