LEISURE RANGE 2014

Our story

We've got your safety covered.

For absolute protection and performance, you need the very best equipment you can rely on to ensure your safety is taken care of. By combining our innovative ergonomic designs with ground-breaking performance materials we aim to provide you with the winning formula. Our leisure brochure offers a complete product range for those essential items of safety equipment allowing you to enjoy the pleasures of being out on the water.

WHY CHOOSE CREWSAVER?

Crewsaver is recognised as a world leading designer and manufacturer of lifejackets and sailing equipment.

Expert Design

Crewsaver's expert designers work closely with the most experienced lifeboat crews, as well as elite round-the-world racers used to pushing their limits within the extreme wind and wave conditions of the Southern Ocean.

With their unique insight we are able, step by step, to refine every aspect of our lifejackets' design and construction.

We feed these innovations directly into each of our lifejacket ranges, whether for commercial or leisure use, ensuring that whatever your reason for being afloat, your safety is never compromised.

Materials and Fabrics

Whether you seek comfort, functionality, approval, reliability, longevity or strength, we have a Crewsaver lifejacket to suit you.

Our design team carefully chooses the best and most appropriate materials for each product, ensuring the ultimate in comfort and longevity for the individual environment. We then combine our in depth know-how with the latest technology to construct quality products which offer you the best possible performance.

Firing Mechanisms

Crewsaver works tirelessly with the world's leading firing mechanism manufacturers to ensure that all the units we use offer the best possible performance within each individual lifejacket design.

In addition, we are proud to have introduced the Prosensor Mk3 operating head into our ErgoFit lifejackets as the culmination of a project with one of our valued suppliers.

With an improved mechanism, the head operates in less than a second of coming into contact with water. Just as importantly, it also includes a new anti-tamper locking system. We have combined the Prosensor Mk3 with the MK5i capsule, which incorporates a new sealing method to help prevent inadvertent firings.

Bladder Technology

Our design philosophy begins with approval standards. To this we add the Crewsaver difference brought about by our complete understanding of both daily life and emergency survival in extreme marine environments.

All of our products are designed, tried and tested with real life situations in mind, allowing you to rely on them completely.

For example, all of our lifejacket bladders are designed ergonomically for every day use but without compromise for your survival in the very worst scenarios. In normal conditions, the 3D sculptured shaping gives you maximum comfort and our sculpted sides allow you to move freely and without hindrance. However should an emergency arise and you find yourself in the water, you'll find our unique designs inflate quickly and reliably. They have buoyancy distribution to keep your mouth well above the water, known as mouth freeboard, and top of the range turning properties to safely float you on your back. Our inflatable chin support will also help to keep your airways clear.

Why choose Crewsaver?

WHICH LIFEJACKET?

Whatever your circumstances, be sure to choose your lifejacket carefully. Whether you are selecting for yourself, your family, your crew or your work colleagues, you should consider worst-case scenarios and the type of lifejacket everyone should be wearing for their ultimate safety overboard in that environment.

Buoyancy Rating

290N Inflatable

These are the highest performance lifejackets available from Crewsaver and are designed for offshore and ocean sailing.

Their high buoyancy offers maximum protection when sailing in severe weather conditions and are also the lifejacket of choice when wearing heavy waterproof or foul weather clothing.

275N Inflatable

These jackets are suitable for offshore or extreme heavy weather they come with minimum of 275N of buoyancy. They will help ensure you turn over onto your back even if you are wearing multiple layers of clothing that trap air. Suitable for inshore, offshore or coastal use.

190N Inflatable

Approved to 150N standards, these Crewsaver lifejackets provide more support than the standard 150N models, whilst maintaining minimal bulk. Suitable for: inshore, coastal and offshore use.

165N-150N Inflatable

These lifejackets are ideal for everyday use and for cruising, coastal and offshore sailing in clear weather conditions. This category includes the range of Crewfit 165N - 150N inflatable lifejackets, adult and junior sizes. The junior Crewfit model is suitable for younger crew members, aged from around 5-6 to 12 years old.

150N Air Foam

These jackets come in either a foam only option offering 150N of inherent, permanent buoyancy or 150N air foam option offering 100N inherent permanent buoyancy with the option to inflate to 150N if required.

100N Foam

These products are great for sheltered and coastal waters and can be seen on the river bank, canal side, beach or marina. The 100N foam lifejacket has inherent buoyancy provided by integral foam, giving instant reassurance and security.

Inflation options

Pro-sensor

The Pro-Sensor inflation system provides the user one point of status indication, to confirm that the unit has been automatically or manually activated. The unit also provides the added benefit of detecting if the CO2 cylinder has been pierced, eradicating the possibility of accidentally fitting an empty gas cylinder.

Hammar Automatic

The Hammar Inflator gives excellent protection from random activation caused by moisture, rain or wave splash. This is achieved by protecting the water sensitive element with a hydrostatic valve, which operates when submerged in over 10cm of water and, depending upon the lifejacket style, held there for between 2 to 3 seconds.

- Hammar works on water pressure, only operating when submerged in 10cm of salt or fresh water
- No accidental inflation, even in extreme conditions
- Cylinder is mounted on the inside of the lifejacket inflation chamber

Standard Automatic

This inflation option is available on most Crewsaver Inflatable lifejackets. Inflation occurs automatically when the capsule is immersed.

- Capsule fires within 5 seconds of entry into water
- Mechanism pierces cylinder, inflating lifejacket
- Can also be inflated as manual version or orally

Manual

Our manual lifejackets will only inflate when you pull the manual pull cord, this option allows the wearer to swim without the lifejacket being activated automatically. This can be useful if you expect to launch or tend a craft in calm waters.

- Pull lanyard
- CO2 cylinder is fired
- Lifejacket inflates
- Delivers full buoyancy in approximately 5 seconds
- Can also be inflated orally

Harness options

Harness

In addition to best practice of wearing a lifejacket at all times, the wearing of a deck safety harness while on a sailing yacht is mandatory at night under RORC (Royal Ocean Racing Club) regulations and highly recommended by all safety at sea organisations whenever there is rough weather.

Non harness

The non-harness version is recommended for situations where being attached to the boat is more dangerous than floating free in the water. Powerboats, speed boats and RIBS (Rigid Inflatable Boats) are all examples where being towed alongside at high speed would be dangerous. The fitting of a safety light on non-harness lifejackets is highly recommended. Non-harness lifejackets are lighter in weight and do not have metal fittings or a safety line attachment point.

Which lifejacket?

ERGOFIT THE ULTIMATE LIFEJACKET COLLECTION

Redefining safety, comfort and style

From the professional ocean racer to the recreational boater, the high performance ErgoFit lifejacket is a 'must-have' for anyone who takes safety on the water seriously.

- Rigorous testing and retesting to exceed all safety standards
- Ergonomic 3D design for freedom of movement
- Super fast turn speed
- Twin lifting points to aid recovery
- Market leading inflation chamber keeps airway clear
- Range of inflation options
- ISO 12402-2 approved (290N)
- ISO 12402-3 approved (190N)

Survive, be found and get recovered

It is what's inside the ErgoFit that will save your life.

SURVIVE

Turn speed is less than 2 seconds, the ErgoFit will double your survival chances even when wearing multiple layers of Ocean clothing.

BE FOUND

Integrated with a PLB or AIS system. Coupled with a SOLAS approved light (190cs optional) whistle and reflective tape ensures you are located quickly.

GET RECOVERED

It is critical to get you out of the water as soon as possible, accessible twin lifting points are incorporated on the front of the ErgoFit for ease of recovery.

Example shown: ErgoFit Ocean 290oc

ERGOFIT It's what's inside that counts

Unique Chin Support
Tilts your head back to help keep your airways clear.

Spray Hood
Included in all ErgoFit lifejackets with easy pull over tabs and piping to help keep the water off of your face.

Light
CSL light is essential if you are making a long voyage or a night passage.

Firing Mechanism
Pro-Sensor Automatic, Hammar or Manual firing systems are available complete with indicator.

Bladder design
A top-of-the-range bladder turns you onto your back, supports your head and diverts waves from your face.

AIS MOB Device
Compatible with the S20 Smartfind, AIS MOB Device, essential for anyone going offshore.

PLB pocket
For carrying your Fast Find 220 Personal Locator Beacon.

Dual lifting beackets
Designed to aid speedy recovery should you fall into the water.

Extreme 290N

Designed exclusively with Abu Dhabi Ocean Racing, based on the highly successful Crewsaver ErgoFit lifejacket collection, the ErgoFit Extreme maintains all of the high specification safety features of the ErgoFit 290N while providing essential performance attributes for the serious ocean racer.

- Dual buckle system, and side waist adjusters
- Robust 500D nylon heavy duty cover, chosen
- A unique hanging loop built into the jacket
- 3D Shape providing the ultimate in comfort and performance
- AIS Compatible, automatic activation on inflation

Ocean 290N OC

The ErgoFit 290N OC itself is a 3D-moulded lifejacket designed for those working in extreme marine environments or for serious ocean sailors facing the full fury of the elements.

- Market-leading inflation chamber to turn you face up fast even when wearing full foul weather ocean kit
- Designed to keep your airway well clear of the water whatever the conditions
- Innovative 3D shaping provides unrivalled fit

ERGOFIT OCEAN 290 OC

ErgoFit Accessories

ErgoFit Safety Knife

The ErgoFit Safety Knife is designed to be safe to carry with you at all times on the water, but highly effective should you need to cut through ropes in an emergency.

1310-SK

S20 Smartfind

Designed to be fitted to a lifejacket the S20 Smartfind is ready to be activated in the event of a man overboard situation.

- Automatic activation when factory fitted onto any ErgoFit lifejacket
- Flashing LED indicator light makes you easier to spot at night
- 24 hours continuous transmission
- 7 year battery storage life

CREWFIT QUALITY, PERFORMANCE AND VALUE

Crewfit Lifejacket Range

The Crewfit lifejacket was designed 30 years ago and remains as popular today as it did then. It is without a doubt the most long standing, successful lifejacket on the market today.

Representing the best in British quality, performance and value the Crewfit lifejackets offer:

- **Expert Design** - Crewfit lifejackets are lightweight, comfortable and unobtrusive. A lifejacket you will not only have to wear but want to wear.
- **Style** - Varying colour options ensure you will find an option to suit.
- **Safety** - Designed to far exceed the requirements of EU legislation.
- **Reassurance** - Only the best quality materials and parts are used in its construction.
- **Confidence** - The Crewfit lifejackets are relied upon by professionals around the world

Safety

- A strong lifting becket enables speedy recovery
- Non-clog whistle, for attracting attention
- All lifejackets are approved to European Standards
- High frequency welded and double inflation tested inflation chamber
- Inflation chamber constructed from high-visibility polyurethane with industrial grade SOLAS Approved reflective tape for additional visibility
- Factory fitted crotch straps stop the jacket riding up in the water and by doing this the wearer is lifted higher and has more mobility.

Crewfit 165N

Latest developments from Crewsaver's continual programme of research and development brings you the most advanced Crewfit design available today, ensuring you are kept as safe as possible should the unexpected occur.

- Unique bladder design that reduces wave impact on the face
- Improved mouth free board (distance from your mouth to the water)
- Unique chin support helping to keep your airways clear
- Soft loop for attaching safety line

Rearm kit

11036

Crewfit 290N

With a high performance 290N inflation chamber and lightweight, hard-wearing cover, the Crewfit 290N is built to suit offshore conditions in combination with heavy-duty foul weather gear.

- Factory fitted crotch straps with a three year guarantee
- Quick Burst Zip (QBZ) cover system
- Twin quick adjust buckles

Standard automatic	Hammar	Manual

10062	Mk51 Black
11012	Hammar Manual
11014	Hammar Automatic

Spray Hood

The Spray Hood stores in a pouch on your waist belt to keep at hand for when the conditions deteriorate. Designed to fit over your head and inflated lifejacket to make you more visible and to reduce the amount of spray you inhale.

- Stored in a pouch on the waist belt
- Fits over the wearers head and the inflated lifejacket
- Reduces spray being inhaled
- Makes the wearer more visible
- For Crewfit lifejackets

Code	Description
10040	Red Pouch
10050	Blue Pouch

Crotch Straps

Fit to your inflatable lifejacket's or buoyancy aid's attachment points for a more secure fit and to hold you in a safer position in the water. Can be retro fitted to all inflatable lifejackets.

- Detailed instructions included to ensure correct fitting

10032

Whistle

Keep one on your lifejacket and waterproof jacket so that you always have it to hand should you need it. Designed not to clog so it works perfectly when you really need it to.

- En394 Approved
- Spare or replacement to carry with you at all times
- Non-clog design

10677

Surface Lifejacket Light

This flashing light meets all relevant safety standards to keep you visible in the worst of scenarios.

- Approved to IMO SOLAS, MED, MCA and RORC requirements
- Flashing "all around" light
- Battery powered
- Detailed instructions included

10220

Flare Pocket

Fits on to your lifejacket's waist belt to keep a single day or night flare to hand for extra safety in poor conditions.

- Flare secured in pocket by Velcro tab
- Flares purchased separately

Code	Description
10303	25mm Dia x 190mm
10304	50mm Dia x150mm

Self Locking & Asymetric Safety Lines

For use with your safety harness, these safety lines are available in a standard or elasticated format with a choice of two or three self-locking hooks.

- Coloured yellow for visibility
- Available with a standard or elasticated line and in 2 or 3 hook formation

Code	Description
3030-AS2	Asymetric 2 hook
3030-ELA	Asymetric 2 hook Elasticated

Self Locking Safety Lines

For use with your safety harness, this safety lines are available with or without a load indicator. With load indicator option activates when the line is placed under an extensive load of 7000-9000 newtons. There is additionally a warning label which, when exposed, means the safety line should be replaced as soon as possible.

- Coloured yellow for visibility
- Load indicator and warning label

CHILDREN'S LIFEJACKETS

Reinventing lifejackets for children

Crewsaver have yet again pushed the boundaries of re-design by making a radical change to baby and children's lifejackets.

A move from 100N to 150N buoyancy plus other key safety and comfort features sets the bench mark in providing the ultimate performance when taking your loved ones on the water.

Euro 150N

The Euro 150N lifejacket has everything to keep your child safe around water whilst remaining comfortable to wear and play in all day. The perky marine design ensures your child will find the jacket as fun as you find it reassuring.

- Contour cut foam aids comfort and turns the child onto their back quickly in water
- Adjustable crotch straps and waist straps for a secure fit
- Lifting point to aid rescue

BUOYANCY AIDS

A full-page background image featuring two men in wetsuits. The man in the foreground is looking directly at the camera with a serious expression. He has dark, wet hair and is wearing a dark wetsuit with orange accents. The man in the background is slightly out of focus, also wearing a wetsuit. A white rope or line runs diagonally across the image from the top left towards the bottom center.

Buoyancy Aids

Our top of the range, multi-purpose and user-friendly buoyancy aids enable support, safety and efficiency for all types of surface watersports. Crewsaver buoyancy aids are available for a variety of different activities specifically designed to suit the needs of what you are doing.

Phase2 50N

Designed specifically to meet modern dinghy sailors' most stringent requirements, the Phase2 50N is an exceptionally comfortable solution. Side zip entry, 3D shaped super soft foam, and neoprene side panels provide top of the range comfort solutions.

- Neoprene side panels
- 3D shaped supersoft foam with low profile waist cut out for excellent fit
- Large front pocket with mesh drain point
- Adjustable waist belt with concealable webbing and buckles

Sizes J S/M M/L XL XXL

6900

Kite 50N

Slim line side zip entry and trapeze harness cut out make the Kite 50N buoyancy aid the first choice for dinghy racers everywhere. Waist adjuster is easily hidden inside the front cover to avoid snagging.

- 3D shaped Supersoft foam panels
- Large front pocket with mesh drain point
- Adjustable side, shoulder straps and waist belt

Sizes J M/L S/M XL

2393 2394

Kite 50N Ladies

Slim line side zip entry and trapeze harness cut out make the Kite 50N buoyancy aid the first choice for dinghy racers everywhere. Waist adjuster is easily hidden inside the front cover to avoid snagging.

- 3D Ladies shaped Supersoft foam panels
- Large front pocket with mesh drain point
- Fully concealed, snug free buckles and webbing

Sizes J M/L S/M

2348

Chromis 50N

Slim line pull-on entry with trapeze harness cut out ideal for racing. Waist adjuster can be hidden away inside the front cover to avoid snagging.

- 3D shaped Supersoft foam panels
- Water resistant zip with hidden pocket
- Fully concealed, snug free buckles and webbing

RESCUE AND SAFETY

Hamble Horseshoe Buoy, Bracket & Light Set

The Hamble Horseshoe buoy, bracket and light set is one of the most compact lifebuoy sets on the market today. Constructed from layered EPE foam and tough PVC material for durability. A lithium battery powered light with a 5 year life. Ideal for both yachts and motorboats, this is an essential piece of equipment in case of a man overboard.

- Flashing, SOLAS approved LED light
- High visibility yellow
- Super soft foam
- Light operates using a lithium battery with 5 year life

100030

Hamble Horseshoe Light

The Hamble Horseshoe Light uses the latest LED technology featuring low current consumption and enhanced reliability. A bright flashing light to help enhance visibility should a crew member fall overboard during the night.

- SOLAS Approved
- Maximum 5 Year life
- Over 30 metres drop height
- Lithium battery included

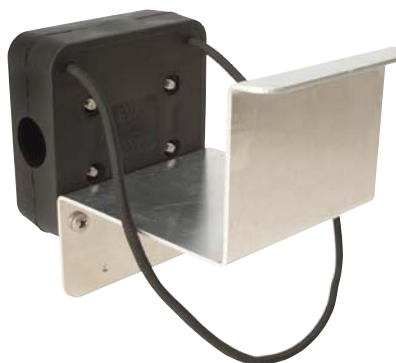

900013

Hamble Horseshoe Bracket

Constructed from stainless steel the Hamble Horseshoe Bracket combined with the Hamble Horseshoe light is the ideal solution for anyone looking to update their Crewsaver horseshoe buoy to be suitable for use at night.

- Constructed from stainless steel
- Easy installation

900014

Horseshoe Buoy

Ideal for both yachts and motorboats, this is an essential piece of equipment in case of a man overboard.

- Layered EPE foam for the ultimate in buoyancy
- Tough outer PVC material to ensure longevity
- High visibility yellow

1320-BUOY

Crewsaver Lifeline

An essential piece of lifesaving kit that no boater should leave the dock without. Protected by a compact, durable and hi-visibility housing, the 20-metre lifeline is constructed from 200D nylon to guarantee strength and performance even in extreme conditions.

1320-LIFE

Crewsaver Rescue Sling

The Crewsaver rescue sling provides a pre-shaped design ensuring easy donning so that a casualty can be recovered from the water safely and quickly should you be in an unexpected man overboard situation.

- Tough PVC outer fabric to aid long life
- 30-meter high strength line

1320-SLING

Throwing Stop

Ensure a fast rescue with just one piece of equipment. The throwing stop provides an innovative combination of both rescue line and lifting stop.

- Durable PVC outer fabric
- 30 metre high strength line

1320-STROP

Mast Head Float 40L

Designed to give extra confidence to those new to sailing or learning new skills, mast head floats can help reduce the risk of boats inverting during a capsize.

- Only effective when correct buoyancy float is fitted - owners are responsible
- Not suitable for boats without anchoring

10086

Mast Head Float 9L

Designed to give extra confidence to those new to sailing or learning new skills, mast head floats can help reduce the risk of boats inverting during a capsize.

- Only effective when correct buoyancy float is fitted - owners are responsible
- Not suitable for boats without anchoring

10085

Please remember: Crewsaver Mast Floats do not guarantee to stop a boat inverting and their performance can be hindered by the conditions. Such conditions include a strong tide, wind, swell or incorrect righting procedure.

Buoyancy Bags

Built from the highest quality abrasion resistant PU coated nylon with leak-free welded construction, Crewsaver buoyancy bags are long lasting and available in sizes to fit most dinghies and with 18-193 litres of buoyancy.

- PU coated nylon
- Welded construction
- Long lasting and abrasion resistant
- Bag sizes to fit most dinghy classes
- 18 to 193 litres of buoyancy

CREWSAVER ISO OCEAN LIFERAFT RANGE

ISO Ocean Liferaft

Increased specification improving safety & performance. Using our skills and expertise in the design and manufacture of both liferafts and lifejackets, we have created the most advanced specification ISO Ocean Liferaft yet.

- A low price solution for high manufacturing quality and high standards
- Innovative design for your safety and ease of transportation
- Approved to ISO 9650-1 standards
- Extended three year service period

Container

Valise

Key benefits

Features

- High volume of water pockets ensure maximum liferaft stability when inflated
- Water Pockets -
 - 4 Man - 2 x 84 litre water pockets
 - 6, 8 & 10 Man - 3 x 84 litre water pockets
 - 12 Man - 5 x 60 litre water pockets
- Simple zip closed canopy door. The canopy is manufactured in a tough polyurethane (PU)
- Coated nylon
- The liferaft has an external strobe light attached to the roof of the canopy, to make it easier for search and rescue teams to locate at night whilst internally, there is an LED light
- A semi-rigid boarding ramp for quick, easy and safe boarding, in addition to interior and exterior lifelines, to help occupants stabilise themselves in heavy seas
- Supplied in either a weather proof valise or a sleek, lightweight container, which includes side handles, ensuring ease of transportation
- Emergency pack options provide rations for under 24 hour and over 24 hour operations
- Rainwater catcher on the rear of the canopy
- Lookout sleeve located on the side of the liferaft canopy

Compact Solution

Lightweight and compact, the Crewsaver ISO Ocean Liferaft is easy to store and takes up minimal deck space, whilst offering complete confidence in an emergency, being deployed in less than one minute.

Fabric Technology

The liferaft has a polyurethane (PU) coating and possesses the following attributes:

- Flexibility
- Long lasting
- Abrasion resistant
- Highly resilient
- Highly durable
- Chemically inert fabric

Marker Buoys

Customised Marker Buoys

Harness the power of our skilled in-house team yourself and we'll create, build and brand solutions to perfectly meet your own specifications. Own branded marker buoys or unique colour ways can help make your event a unique and memorable one.

Pyramid Buoy

Constructed with a durable double skin and inner inflation chamber. The Pyramid buoy offers an alternative to the dumpy buoy.

- Hard wearing construction
- Comes with fitted mooring harness
- Standard bright orange for high visibility

10076

Reinforced Training Mark

This bright orange training mark has a black stripe for high visibility and a strong PU coated nylon construction strengthened by webbing.

- High frequency welded inflator
- Includes flag pole holder and pocket for strengthening baton
- Internal 'sand' bag for maintaining vertical altitude
- Three webbing handles and strengthened webbing construction
- Can be packed flat when sand bag is empty

10074

Training Mark

This is an easy to use training mark that can be quickly and easily laid for a huge variety of training exercises. Easy to inflate by mouth on the water, it is twin-skinned for durability and comes complete with its own weight bag. Perfect for sailing schools and coaches.

- Simple training aid
- Mouth inflation
- Strap for easy recovery
- Inflatable twin skin and weight bag
- Dimensions: 1.9m x 0.3m

Fastfind MaxG GPS

Personal locator beacon to aid individual rescue at sea. Global emergency alert system via COSPAS-SARSAT satellites with a typical alert reaching rescue services within 3 minutes.

- Waterproof to 10 metres and buoyant
- Inbuilt 12 channel GPS
- High accuracy 406 MHz alert transmitter
- 121.5 MHz homing signal

11062

S20 Smartfind

Designed to be fitted to a lifejacket the S20 Smartfind is ready to be activated in the event of a man overboard situation. Once activated the unit then transmits your position and identity via GPS back to your vessel, enabling a fast rescue.

- Automatic deployment when factory fitted into the ErgoFit lifejacket.
- Flashing LED indicator light makes you easier to spot at night
- 24 hours continuous transmission
- 7 year battery storage life

11084

S10 Smartfind

The Smartfind S10 is designed to be activated in the event of a man overboard situation or other personal crew emergency. The unit transmits your position and identity via GPS back to your vessel, enabling a fast rescue.

- Flashing LED indicator light makes you easier to spot at night
- 24 hours continuous transmission
- 5 year battery storage life

11065

S5 Smartfind

Stored in a quick release carry off bag, the rugged S5 Smartfind is buoyant and waterproof to a depth of 10m. When activated, the S5 transmits an alert message.

- High visibility and buoyancy
- Shoulder strap to aid carrying in emergency evacuation
- 96 hours of continuous transmission

11079

S4 Rescue SART

Designed to be stored in a liferaft or as a carry off device, the rugged S4 Rescue SART is buoyant and waterproof to a depth of 10m. When activated, it detects radar signals from other vessels or aircrafts and automatically transmits a response signal that appears on the other vessel's radar display.

- Suspend in liferaft or mount higher using the integrated extending pole
- 96 hours operation

11073

R5 GMDSS VHF

Portable GMDSS survival craft handheld VHF radio that can also be used for general onboard communication. Powerful and user-friendly, it has been specifically developed for the harsh environment at sea.

- 6 year battery storage life

11081

Spare parts

Smartfind Auto Float Free Housing

Supplied with a float-free housing, the Smartfind E5 EPIRB automatically deploys and activates the EPIRB if the boat is sinking.

Boot

When you're racing or training, hiking or trapezing, you'll want footwear that gives you support, grip, flexibility and a secure foothold around the boat. The Phase2 Boot gives you all that plus the warmth of 5mm neoprene.

- Front entry with Velcro fastening ensures bespoke fit
- Heel, arch and toe support
- Reinforced front hiking support

Sizes 4 - 14

6913

Zip Boot

If you prefer the additional foot protection and stability afforded by a more substantial zip-up boot over a slipper style boot, this Phase2 design is the ultimate sailing boot for you.

- 5mm neoprene construction for warmth and durability
- Side zip with neoprene gusset for easy donning
- Reinforced hiking and heel area protection

Sizes 1 - 14

6914

Knee Pad

You won't notice you've got these comfortable and flexible moulded neoprene pads on, but you'll thank yourself for bothering every time your knee lands heavily on a fitting or a thwart or a kick bar – or even the trolley when you're launching.

- Ergonomic cut
- Flexible back panel for freedom of movement and comfort
- Reinforced heat moulded knee panel for durability

Sizes S M L

6909

Neck Gaiter

A neck gaiter is ideal to add warmth and comfort when the temperature starts to drop. Use it around your neck or pull it right up over your face to really beat the wind chill.

- Constructed from LX7K fabric for warmth
- Laser-cut breath holes
- Flatlocked construction for strength

Size Universal

CLOTHING & LUGGAGE

ErgoFit Jacket

Perfect for coastal sailing, motorboating, coaching and instructing, the ErgoFit Jacket is designed to a high specification with articulated arms, reinforced elbows and an off-centre zip to avoid chaffing your chin.

- Articulated arms for a sports fit
- Two large front pockets and one pocket on the left arm
- Adjustable hem and Velcro cuffs for secure fit

Sizes S M L XL XXL

6101

ErgoFit Smock

Coastal sailors and motor boaters who prefer a smock style top rather than a jacket will appreciate the attention to detail given to the design and construction of the ErgoFit Smock.

- Constructed from nylon with reinforced elbow panels
- High neck for maximum protection against the elements
- Articulated arms for sports fit
- Two large front pockets and one pocket on left arm

Sizes S M L XL XXL

6100

ErgoFit Salopettes

Suiting the coastal sailor, the ErgoFit Salopettes show great attention to detail in their design and construction. The adjustable shoulders are comfortable and secure, the waist and back trim in to fit your shape and there is plenty of reinforcement in the high-wear zones such as the knees and seat.

- Reinforced knees and seat area for long product life
- Pocket on left leg for waterproof items
- Long front zip means no need for relief zip
- Velcro ankle closure for an adjustment fit

Sizes S M L XL XXL

Design and Fabric Technology

BS EN ISO 12402-2

BS EN ISO 12402-2

Approved to the latest British and European standard.

BUOYANCY CATEGORY

The level of buoyancy that defines each product and the environment they are suitable for.

CYLINDER SIZE

The size of CO2 cylinder used to inflate the lifejacket.

SPRAYHOOD

SPRAYHOOD

Fits over the wearer's head to reduce the amount of spray being inhaled.

LIGHT

LIGHT

SOLAS approved lifejacket light.

INFLATION
OPTIONS

INFLATION MECHANISM OPTIONS

(M) Manual, (A) Automatic, (H) Hammar.

EN396
APPROVED

EN 396

Approved to British Standards.

FRONT ZIP

FRONT ZIP

Quick, easy & secure closure.

ADJUSTMENT
FEATURES

ADJUSTMENT FEATURES

Various adjusters to guarantee a bespoke fit and extreme comfort.

SUPERSOFT
FOAM

SUPERSOFT FOAM

Soft 3D foam shaped to your body for extreme comfort.

NYLON

NYLON

Durable, lightweight and water resistant fabric.

RIPSTOP

RIPSTOP

Hard-wearing, anti-tear fabric.

NEOPRENE

NEOPRENE

Extremely versatile synthetic rubber, highly flexible and insulating.

TX20K

TX20K

A highly durable 3 layer fabric for extreme waterproof protection. Delivers the ultimate in performance and comfort.

ERGONOMIC
DESIGN

ERGONOMIC DESIGN

Pre-shaped for increased flexibility and freedom of movement.

EXTREME
BREATHABILITY

EXTREME BREATHABILITY

Body water vapour is allowed to escape for greater comfort.

TAPED
SEAMS

TAPED SEAMS

Added strength and water resistance.

GLIDESKIN
COLLAR/CUFF

GLIDESKIN NEOPRENE NECK & CUFF SEALS

Non-irritant, high stretch for ease of donning and extreme water resistance.

HIGH
WICKING

HIGH WICKING

Moisture is efficiently absorbed away from the body for additional comfort.

CURVED ZIP

CURVED ZIP

The front zip curves around the body for freedom of movement when sailing.

PU COATED
NYLON

PU COATED NYLON

Lightweight yet durable water resistant fabric.

DX10K

DX10K

Lightweight 2 layer fabric comprising a tough waterproof and windproof outer and a breathable layer with additional print lining for increased durability and protection: MVP: 3,000g/m2/24hrs; WP: 5,000mm.

MICROFLEECE
LINED

MICROFLEECE LINED

Additional comfort and warmth.

THERMA
CONTROL

THERMA CONTROL

Range of layers that create endless combinations for any weather conditions.

WATERPROOF

100% WATERPROOF

Fully waterproof fabric with taped seams.

ARTICULATED
ELBOW

ARTICULATED ELBOWS

Pre-shaped arms for increased freedom of movement.

REINFORCED
WEAR AREAS

REINFORCED WEAR AREAS

Provides additional strengthening.

POLYPROPYLENE

POLYPROPYLENE

Lightweight yet durable soft feel fabric.

MUSCLE
SUPPORT

MUSCLE SUPPORT

Close fitting against the body for extra hold.

FLATLOCKED
SEAMS

FLATLOCKED SEAMS

Added comfort against the skin.

ADJUSTABLE
SHOULDERS

ADJUSTABLE SHOULDERS

Offer increased comfort, flexibility and an excellent fit.

USE WITH
HIKING PADS

USE WITH HIKING PADS

Compatible with Crewsaver hiking pads.

NYLON/
SPANDEX

NYLON/SPANDEX

Highly stretch fabric for extreme freedom of movement.

AMARA

AMARA

Hard wearing reinforcement for high wear points.

REFLECTIVE
PRINT

REFLECTIVE PRINT

Retro-reflective print for added visibility.

UV50+

SUN PROTECTION

Sun protection factor of UV50+.
