Mast Head Floats

Designed to give extra confidence to those new to sailing or learning new skills, mast head floats can help reduce the risk of boats inverting during a capsize. Available in 9 or 40 L of buoyancy, the Crewsaver Mast Floats have a heavy-duty fabric construction to ensure they work to their optimum all season long.

- Designed in conjunction with sailing centres in both the UK and abroad
- Only effective when correct buoyancy float is fitted - owners are responsible
- Not suitable for boats without anchoring

Please remember: Crewsaver Mast Floats do not guarantee to stop a boat inverting and their performance can be hindered by the conditions. Such conditions include a strong tide, wind, swell or incorrect righting procedure.
